COMPETITION

The SIMM (Swiss International Mountain Marathon) is THE unique outdoor event for orienteers, trail-, mountain-, endurance- and adventure runners, walkers and hikers, in pairs, as a couple or even with the family: FOR MOUNTAIN LOVERS WITH BRAINS.

You are free to choose your own route between the prescribed checkpoints and this must be navigated with the help of only map and compass while carrying everything you need to be self-sufficient at the overnight camp and during the 2 days of competition.

There is a minimal equipment list comprising essential emergency equipment that must be carried at all times by competitors. The 3 Orienteering-Marathon courses require navigation expertise and are for experienced mountain navigators and orienteers. The 2 Trail-Marathon courses, on the other hand, follow Hiking trails and require only basic knowledge of map reading.

The SIMM is (since 1976) the Swiss daughter of the Karrimor International Mountain Marathon and similar to The OMM nowadays ...
